

W.H.PERRON

T-5 Fluorescent Bulb (2' and 4')

Considered as a revolution for horticulture! T-5 fluorescents bulb lets you enjoy gardening every day of the year. Start your vegetables and flowers from seed or grow herbs for the kitchen, or even exotic plants. These fluorescent bulbs produce a full spectrum of light, using 20 % less electricity than old-type fluorescents. The light is also brighter (equivalent to 6,400 Kelvin degrees).

Replacement bulbs for the T-5, 60 cm or 120 cm and for the Jump Start, 60 cm or 120 cm. **Attention: the bulbs are 54 cm or 112.5 cm long and will not fit on a system that requires a 60 cm or 120 cm bulb.**

Specification

- Full spectrum/6400 Kelvins.
- Extra-long life: 10,000 hours.
- Luminous efficiency: 95 lm/W when operating at temperatures of 75 degrees and higher.
