

# GROWER'S FACTS

W.H.PERRON 

## K OHLRABI

---

**CULTURAL PRACTICES:** seed directly early in the spring.

**SOIL:** loose, deep, rich and fresh with a pH of around 6.5.

**SPACING:** in pockets of 3 or 4 seeds distributed every 20 cm. Thin out to keep only one plant, per bundle or 1 foot every 20 cm. Space the rows 25 cm apart.

**GROWING TIPS:** it does not require any particular care. Be sure to mulch the soil to keep it cool.

**HARVEST:** harvest it when its diameter is 5 cm.
